Exploring knowledge |  
Act in Drama | Drawing

## CERTIFICATES

Internship   
MTC /Abhyaz  
I built a PCB on EasyEDA.  
PLC and SCADA   
MSME, Kolkata

## PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with expertise in JavaScript and the MERN stack. Proficient in designing efficient APIs with Node.js and Express, and creating responsive front-end components with React.js. Skilled in using Generative AI and swiftly mastering new technologies, accompanied by strong problem-solving and collaboration capabilities.

## PROJECTS

### 1. Clone of landing page of Viatours | | HTML5 | CSS3 | Figma | Git

- Developed the navbar and initial body section using HTML5 and CSS3, contributing to the overall visual and functional elements of the page.
- Utilized Figma for design references and maintained consistency with the original layout and appearance.
- Completed the project within a strict two-day timeline, demonstrating effective teamwork and time management skills.

### 2. Clone of Spotify - Melodify | | HTML5 | CSS3 | JavaScript | Git

- Led the team in developing a Spotify clone using HTML5, CSS3, and JavaScript, ensuring project alignment with initial vision.
- Designed and implemented authentication features including user login, logout, and password reset functionalities.

### 3. Pixel, an application for freelancers | |

React | Redux | Git | CSS3

- Led the team in the absence of the team leader, ensuring timely completion of the project within three days.
- Developed and maintained frontend components using React and Redux, enhancing user experience and interface.
- Utilized Git for version control to facilitate collaborative development and maintain code quality.

## ACHIEVEMENTS

### Founder of Non-Profitable Fund

Official Apatato Bekar

I was one of the founding members of this fund. We worked here to help needy people with the vision of a better future. It was highly active until 2021.
